

2021 Jumping Workshops with Susan Salo

- February 20-21
- April 9-11
- December 3-5

Susan Salo is returning to the Bella Vista Training Center to share her extensive experience of using grid work to promote efficient jumping and proper footwork to build confidence in both the dogs and the handlers. She offers a unique perspective and knowledge of the mechanical aspects of the dog's execution of agility obstacles, which when properly applied, can create muscle memory and balance for the canine athlete.

These sessions are limited. Individuals interested in attending need to contact Lori Napoli at napolila@comcast.net to find out more information.
